

Step #1—Envision Your Guitar Playing Future

- What situations what I like to see myself playing?
- Would I enjoy playing by myself in my room?
- Would I like to play in front of others?... Family and friends? More people... cafes, bars, parties, concerts, weddings?
- How about bringing my guitar on camping trips and doing group sing-alongs?
- Who are some of the guitar players I admire and would like to model?
- Do I want to play popular songs?
- Would I like to create my own songs?
- Does playing with others seem like something I'd like to do?
- How about being part of a band?
- What else would I like to do with my music? Play in church? Uplift aging folks in convalescent homes? Have family sing-alongs with my children? Teach music?
- How do I feel when I'm playing guitar the way I envision and in the situations I envision?
